Special Study					

Part C—ACCOMPLISHMENTS

Positions held (professional, teaching, scientific, business, other). Account for entire period from high school graduation to date of application.

Name of Firm, Institution or Organization	Title of Position	Dates

Submit a Curriculum Vita with the application. The information should include a summary of academic record, degrees and academic honors achieved; membership and activities in professional societies; other scholarly and professional activities.

Part D—PROGRAM AND PLANS

Please address each of the following three requirements.

- 1) Provide a brief autobiographical sketch.
- 2) On a separate piece of paper, provide a brief statement of your professional plans and goals. Please include:
 - a) Why you are interested in the field of toxicology.
 - b) How you expect to contribute to this field.
 - c) A description of your ideal position upon program completion.
- 3) Provide the most recent transcript of grades. If this transcript does not include all final grades for your current or most recent term, you must forward a supplemental transcript immediately upon completion of your final course work.

Part E-REFERENCES

The applicant should also have submitted on his/her behalf, three letters of recommendation. One should come from his/her major advisor, preceptor, or other suitable references. These letters of recommendation should confirm the applicant's standing in a doctor of pharmacy education program. All letters of recommendation should provide further reference to the applicant's scholarship, professional attributes and any other factor deemed relevant to the evaluation process. NOTE: It is the applicant's responsibility to obtain letters of reference from the persons here named. All letters of recommendation must also be received by the Georgia Poison Center by close of business, January 5. Please follow-up, if necessary, to assure prompt reply from each reference.

 Signature of Applicant

Eligibility:

Eligibility is restricted to persons who have earned, or currently enrolled in a program to earn, a PharmD degree. Applicant must be eligible for licensure in the state of Georgia.

Application:

The completed application will include the following:

1. **Application Form**
The completed application will include: A brief autobiographical sketch and a brief statement of future plans or goals.
2. **Curriculum Vitae**
The CV should summarize previous academic record, including: Colleges attended, degrees and academic honors achieved; membership and activities in professional societies; any other scholarly and professional activities.
3. **Letters of Reference**
The applicant should also have submitted on his/her behalf, three letters of recommendation as described in the application form.

Selection Criteria:

The criteria for selection among the applicants includes: academic achievement, scholarly activities and professional attributes. Selection of the toxicology fellow will be made by the Georgia Poison Center based on evaluation of the application materials, personal references and an interview with the applicant.

Incomplete applications will not be considered.

**CLINICAL TOXICOLOGY FELLOWSHIP
GEORGIA POISON CENTER
GRADY HEALTH SYSTEM**

The Georgia Poison Center, a department of the Grady Health System, offers a 12 month and 24 month fellowships in Clinical Toxicology. The primary goal of the fellowship is to train a Doctor of Pharmacy graduate to function in a professional, administrative and research capacity in a regional poison center, clinical toxicology service and/or academic environment. Major activities in the 12 month period will include teaching, management, research, and clinical service on the telephones. The primary faculty for the fellowship include Gaylord P. Lopez, Pharm.D., DABAT, Stephanie Hon, Pharm.D., DABAT, and Robert J. Geller, M.D., ABMT.

The Georgia Poison Center has been designated by the Department of Human Resources, Emergency Medical Services Division, State of Georgia, as the regional center for the State of Georgia. The center has been certified and accredited by the American Association of Poison Control Centers. Last year, the Georgia Poison Center received over 75,000 combined human and animal exposures. The poison center serves as an educational site for emergency medicine residents and pharmacy students out of Mercer University School of Pharmacy, University of Georgia School of Pharmacy, and Creighton University School of Pharmacy. Faculty and staff in the poison center have been actively involved in toxicological research, primarily in the areas of poisoning epidemiology and poisoning management.

Applicants must possess a Pharm.D. degree from an accredited School or College of Pharmacy. A completed postgraduate residency is required for our 12-month fellowship program. The fellowship begins July 1 (negotiable). The 12 month stipend is approximately \$45,000. Benefits include paid vacation and health insurance.

Requests for further information and letters of application with a curriculum vitae should be sent to:

Gaylord P. Lopez, Pharm.D., DABAT
Director
Georgia Poison Center
80 Jesse Hill Jr. Dr. S.E., P.O. Box 26066
Atlanta, GA 30303
or telephone at (404) 616-9238

Certified as a Regional Poison Control Center by the American Association of Poison Control Centers and Designated as the State Poison Center by the Georgia Department of Public Health.
