

Georgia Poison Center Monthly Call Summary June 2009

In June, the Georgia Poison Center handled 9705 calls, of which 7,302 calls were related to human exposures, 698 calls related to animal exposures and 1,705 calls were related to general poison information.

The specialized staff at the Georgia Poison Center was able to effectively triage 84% of calls that were received from the general public at the site of exposure without referral to a health care facility by providing simple first aid instructions over the phone.
